Foundations®

OPAQUE | SHEER | MATTE

MaycoColors.com

Foundations®

Begin your ceramic project with Foundations®. Available in gloss opaque, gloss translucent sheer and soft matte finishes. Foundations® are an essential building block for any ceramic program. The Opaque, Sheer and Matte glazes are easy to apply, consistent in firing performance and budget friendly. Foundations® glazes dry quickly, allowing for immediate additional decorating and same day firing. Foundations® glazes can be applied to earthenware, stoneware, terracotta or porcelain surfaces of clay or bisque and fired from cones 06 to 6.

New Foundations® Opaque glazes

Foundations® OPAQUE

Broad palette of colors that produce a beautiful, smooth high gloss finish and can be intermixed for custom colors.

Many Foundations® Opaque and Stroke & Coat® glazes are perfect companions, developed to be used together in layering and combination.

Foundations® S H E E R

These translucent glazes add a tint of color to your work, showcasing surface textures and allowing design details to show through.

Sheers provide darker accents in any crevices, which gives an antique effect.

Foundations® MATTE

Fires to a beautiful, soft subdued matte finish. Matte finish will increase in glossiness if fired higher than cone 06.

FN301
Marshmallow White

FN302
Ivory Cream

FN304
Black Velvet

Stroke & Coat® glazes applied over Foundations® Matte glazes create a dramatic contrast between colors and finishes.

GENERAL USE

Shake for 5-6 seconds before use. Dispense glaze onto a palette (tile, plate, etc.) and apply with your brush or decorating accessory of choice (sponge, stamp, etc.). Foundations® glazes were designed to mature at a shelf cone 06/05. Apply 2-3 coats, on cone 04 bisque, allowing surface to dry in-between coats. Foundations® dry quickly and speeds up your ability to handle or perform additional decorating. Foundations® Opaque and Sheers fire to high-gloss finishes, and therefore does not need to be clear glazed. When applying to a large surface, we recommend a broad, soft brush such as CB-604 #4 Soft Fan. Try to get the brush fully saturated (loaded) and apply each coat in the same direction to minimize brush marks.

Foundations® have been formulated to mature at cone 06/05; however, most will maintain their color at higher temperatures. Refer to the individual color label or MaycoColors.com for cone 6 firing performance. We recommend testing on your clay body and in your kiln prior to use.

AVAILABLE SIZING

4 oz.	16 oz. Pint	1 gal.
√	√	√ (varies)

Foundations® PACKS

Foundations® glazes are available in assortments that include our most popular colors. Great choice for the classroom or studio. **Value priced** and available in 4oz and pint packs.

FN001 White
FN002 Yellow
FN003 Orange
FN004 Red

FN005 Pink
FN017 Purple
FN018 Bright Blue
FN019 Dark Blue

FN007 Green
FN020 Medium Green
FN008 Brown
FN009 Black

FNKIT3 Contains 12 - 4 oz jars, one each of the colors.

FNKIT3P Contains 12 pint bottles, one each of the colors.

Skip the Dip

Foundations® Opaque and Sheer will fire glossy without addition of a clear glaze. Foundations® flow easily and smoothly when brushing - no visible brushstrokes in the fired finish.

Art by Dawn Blattel
Foundations® are fluid enough for easy glaze pours!

All Over Coverage or In Design

Foundations® are perfect for base coating and easy-to-use for all-over coverage or in design.

Majolica Technique

Foundations® are a stable, non-moving base glaze that is perfect for majolica techniques with Stroke & Coat® glazes.

Glaze Combinations

Foundations® can be used in combination with other glazes such as Stroke & Coat®, Jungle Gems™, Fundamentals® Underglazes, Elements™, Designer Liner, and Cobblestone.

Time Saving

Foundations® glazes dry quickly, allowing for immediate additional decorating and same day firing.

Glaze Sgraffito

"To scratch" in Italian, sgraffito is produced by applying layers of Foundations® and carving through the glaze to create depth and add contrast to your designs. An impactful and dramatic way to use Foundations® on your ceramics or clay surface.

Textured Effects

Foundations® Sheers can be used to build layers of color over design work, behaving much like a tinted clear glaze. When used on a detailed piece, Sheers tend to gather and pool around raised and incised areas, deepening the color in those areas.

Apply to Greenware or Leather-Hard Clay

Foundations® can be applied to greenware or leather-hard clay. We recommend leaving an area unglazed, such as the back or bottom to allow outgassing during the firing process. Clay should be completely dry before firing to cone 04.

Intermixable

Create a custom color for specialized designs or extend your palette with just a few colors. Mix colors to create something new; use brushstrokes to blend colors and create shading; layer them without concern of intermixing.
